

Nervous System

Directions: The diagram shows the parts of the nervous system. Use it to answer the questions.

1. Where in the body are the nerves?

2. From where do the nerves branch out?

3. How might an injury to the spinal cord affect the nerves?

4. What are the main parts of the brain?

5. Where in the body is the brain stem?

6. What parts of the body does the brain stem connect to?
