# The Respiratory System

**Directions:** The diagram shows the parts of the respiratory system. Use it to answer the questions.

1. Through which two organs does air enter the body?  
\_\_\_\_\_
2. Through what passage does air get into your lungs?  
\_\_\_\_\_
3. Through which organs does air leave the body?  
\_\_\_\_\_
4. Doctors use a stethoscope to listen to some body systems. Study the diagram. What do doctors hear when a person takes a deep breath and releases it?  
\_\_\_\_\_
